

BILL LOVETT

New York, NY / ilovett.com

(347) 688 - 7653, bill@ilovett.com

SKILLS

Front-end

I have written HTML, CSS, and JavaScript for over 100 projects.

Back-end

PHP is my primary scripting language. I can also work in Python, Ruby, Perl, Bash, and C#.

Database

Usually MySQL, but sometimes SQL Server and occasionally Postgres. I design schemas and optimize slow queries.

Fundamentals

I use Git, Subversion, and Mercurial. I am comfortable on the command line. I use Emacs.

EXPERIENCE

Freelance Developer 2006 – present

I am currently an independent contractor working on a remote basis. Projects have included:

- WordPress on hearsaysocial.com and genaknox.com
- Custom CMS and API on openroadmedia.com
- Ecommerce via Shopify on insiders1.com

Senior Web Developer at Huge (agency) 2010 – 2010
Django front-end on houselogic.com

Senior Front End Developer at MCD (agency) 2008 – 2009
Front-end team lead on discoverbank.com.

Web Developer at Digital Pulp (agency) 2007 – 2007
CakePHP on wish.org.

Webmaster at PubSub Concepts (search engine) 2004 – 2006
PHP for a multi-tier feed aggregation service.

Senior Programmer at Mass Transmit (agency) 2002 – 2004
PHP and front-end on a LAMP-based email service. Flash and Actionscript on brochure sites.

Site Builder at Little Tornadoes (agency) 2000 – 2002
Front-end development on various sites.

EDUCATION

BA in English and Journalism, New York University
