

# BILL LOVETT

---

85 John Street #6D  
New York, NY 10038  
(212) 706-7653  
bill@ilovett.com

## BACKGROUND

---

Front end web development, PHP, MySQL, and Flash

## EXPERIENCE

---

- April 2003—present **Freelance Developer**  
Programming consultant to individuals and companies on web-related projects. Start-to-finish involvement with both front-end and back-end layers, from HTML, CSS, and JavaScript on the client side to database design and MVC scripting. Primary environment is PHP, Apache and MySQL, with additional familiarity with Ruby on Rails and ASP.NET.
- August 2004—June 2006 **Webmaster** at PubSub.com, a search engine startup. Ran the day-to-day operations of the PubSub website, which provided a search engine for blogs and other syndicated content. Entailed Apache administration of three servers providing a collection of discrete services in a LAMP environment.
- May 2002—April 2004 **Senior Programmer** at Mass Transmit, an interactive agency. Built LAMP-based web sites for a variety of clients, as well as cross-platform promotional CDROMs in Flash. Refactored and expanded an in-house email publishing tool which clients used for their email marketing campaigns.
- July 2000—May 2002 **Site Builder** at Little Tornadoes, an interactive agency. Produced the front ends of various client websites for consumption by version 4 and 5 web browsers.
